📍 Sylhet, Bangladesh

Education

Dec 2017 – Apr 2023
Sylhet, Bangladesh

Bachelor of Science in Industrial & Production Engineering
Shahjalal University of Science & Technology, Sylhet

- CGPA: 3.57/4.00 (3.71 in last 60 credits)

Research Experience

Feb 2023 – Mar 2023
Sylhet, Bangladesh

Undergraduate Thesis

Thesis Topic: **Effects of Loading, Heat Treatment, and Holding Time on Springback for V-Bending Process**

- To identify the effects of bending force, holding time and heat treatment of the workpiece on springback for different materials.
- To reduce springback in metal forming by investigating the combined effects of bending force, holding time, and heat treatment.
- To make a comparison between different materials on the basis of their springback characteristics.

Supervisor: Engr. Mohammed Abdul Karim, Assistant Professor.

Publications

1. T.I Rajon, R Ahmed, E.M.A Karim, M. A. H. Mithu “**Springback in V-bending: Role of Loading, force holding time, and heat treatment**” (Currently under peer review in a leading journal)

Professional Experiences

July 2023 – May 2024
Dhaka, Bangladesh

Management Trainee Officer

Industrial Engineering Department

Ha-Meem Group

- Work closely with production team to develop automation practices
- Monitor & control all bottleneck areas within production
- Ensuring the forecast for production line & achieve the plan forecast
- Follow SMED layout to minimize feeding time
- Analyze root cause of less production lines with corrective action

Industrial Training & Visits

Dec 2022 – Jan 2023
Narsingdi, Bangladesh

Industrial Training – II

Training Institute for Chemical Industries (TICI)

- Four Weeks Long Training Program.

Mar 2021 – Apr 2021
Chittagong, Bangladesh

Industrial Training – I

Bangladesh Industrial Technical Assistance Center (BITAC)

- Carried out various machining operations. Also performed heat treatment operations in various furnaces.

Dec 2019
Sylhet, Bangladesh

Industrial Tour

Alim Industries Ltd.

- To study about the manufacturing and assembly process of various Agricultural machinery.

Technical Skills

- **Engineering Drawing** (CAD, SolidWorks)
- **Simulation** (ANSYS, Arena)
- **Programming** (Python, ML, MATLAB, C)
- **Software and tools** (MS Office)

Projects

Jan 2020 – Apr 2020

Mosquito & Insect Repeller

Under the supervision of Dr. Choudhury Abul Anam Rashed, Professor

- To develop an electronic device for mosquitoes control.
- To assess whether Electronic Mosquito Repellents (EMRs) prevents mosquito bites.
- To reduce environment pollution.
- The actual oscillation frequency of this electronic mosquito repellent is above 20KHz.

Mar 2022 – May 2022

To Analyze Passengers Waiting Time at SUST Gate

Under the supervision of Dr. Abul Mukid Mohammad Mukaddes, Professor

- To develop a simulation model of a CNG station.
- To study and analyze the simulation model.
- To observe and conclude the results obtained from the model.

July 2022 – Oct 2022

Establish A High-Performance Computing Laboratory in IPE Department.

Under the supervision of Md. Rezaul Hasan Shumon, Associate Professor

- Procure and deliver "50 high end laptops" and two 3D Printers" and the required software along with the necessary services.

IELTS

LISTENING	READING	WRITING	SPEAKING	OVERALL
7.5	6.0	6.5	7.0	7.0

GRE

Total	Quantitative	Verbal	AWA
305	162	143	3.0

Awards

Physics Olympiad

Secured 17th position in Physics Olympiad (Divisional Round) organized by BNMPC Science Club.

Leadership & Volunteering Experience

Jan 2020 – Jan 2022

Sylhet, Bangladesh

SUST IPE Association

Executive Committee Member

Apr 2018 – Mar 2023

Sylhet, Bangladesh

Career Club SUST

General Member
